

JOALI

*to find joy and
possibility all
around*

JOURNEY OF YOU

Our philosophy at JOALI Maldives is rooted in the joy of creative living: celebrating curiosity, sparking imagination, and turning every moment into connection and delight.

If you are curious, intuitive, and passionate about bringing joy and creativity to every moment, you could be a perfect fit for our team.

WE ARE LOOKING FOR

Chief Engineer

The Chief Engineer plays a crucial role in supporting the Director of Engineering by overseeing the day-to-day technical operations, leading project implementation, and ensuring all engineering standards are met in alignment with JOALI Maldives operational procedures and brand positioning. This role ensures the seamless operation of all engineering systems and enhances the guest experience through exceptional attention to detail and superior service quality.

Requirements:

- Certification in Mechanical Engineering is preferred.
- A minimum of three years experience in a similar role within hotel or resort engineering department.
- Proven leadership capabilities with hands on, proactive approach to preventive maintenance, safety and energy management.
- Strong interdepartmental understanding, with familiarity in the operations and priorities of key hotel or resort departments (e.g., Housekeeping, Front Office, F&B etc.)
- Excellent communication skills in English, both spoken and written.
- Committed to sustainability, guest satisfaction, and innovation in line with JOALI's core values.

‘Take all the inspiration from JOALI and start writing your own journal.’

Successful candidates will enjoy excellent remuneration package, service charge, fully-furnished on site hosts accommodations well as entertainment facilities.
