Plumbing Supervisor

We are seeking an experienced Plumbing Supervisor to oversee plumbing and sanitary installation works for the Villa Eden Resort Development Project. The successful candidate will supervise plumbers and subcontractors, coordinate daily site activities, monitor installation quality and progress, and ensure all plumbing works are completed safely and in accordance with approved drawings, specifications, and project requirements.

KEY RESPONSIBILITIES

- Supervise and coordinate all plumbing and sanitary installation works at the project site.
- Lead and allocate daily tasks to plumbers, pipe fitters, and plumbing workers.
- Review plumbing drawings, layouts, specifications, and installation details.
- Supervise installation of water supply, drainage, sanitary, and related plumbing systems.
- Oversee installation of pipes, valves, pumps, tanks, sanitary fixtures, fittings, and associated equipment.
- Ensure correct pipe routing, levels, slopes, supports, connections, and installation methods.
- Supervise pressure testing, leakage testing, flushing, and commissioning of plumbing systems.
- Coordinate plumbing works with civil, electrical, HVAC, and other MEP activities.
- Inspect completed works and ensure installations comply with approved drawings, specifications, and required quality standards.
- Identify defects, leaks, blockages, or installation issues and ensure corrective action is taken.
- Monitor daily manpower, materials, tools, and equipment requirements.
- Coordinate with project engineers, contractors, subcontractors, and other site supervisors.
- Ensure plumbing materials are properly handled, stored, and used efficiently.
- Maintain daily records of work progress, manpower, materials, and site issues.
- Monitor work against project schedules and report delays or potential issues.
- Ensure workers follow site safety procedures and use appropriate PPE.
- Conduct toolbox meetings and promote safe working practices.
- Assist with inspections, testing, commissioning, and handover of plumbing systems.
- Report technical issues, material shortages, and other site requirements to the Plumbing Engineer/Project Management.
- Perform other plumbing-related duties as assigned by the Project Management.

QUALIFICATIONS & EXPERIENCE

- Diploma, Certificate, or other relevant qualification in Plumbing, Mechanical Engineering, or a related field.
- Minimum 5 years of relevant experience, with at least 2 years in a supervisory role.
- Strong experience in plumbing installation works for construction projects.
- Previous experience in resort, hotel, commercial building, or large-scale construction projects is an advantage.
- Good understanding of plumbing drawings, pipe installation, testing, and commissioning.
- Knowledge of water supply, drainage, sanitary, and related plumbing systems.
- Strong leadership, coordination, and problem-solving skills.
- Ability to supervise plumbers and coordinate with other trades.
- Relevant plumbing certification/trade qualification will be an advantage.
- Willingness to live and work at a resort construction island/project site
