

JOB VACANCY (1)

Location: Construction Site, K. Atoll

Job Description

Responsible for carrying out landscaping, gardening, site beautification, planting, maintenance, and related works in accordance with approved landscape designs, project specifications, and site requirements, ensuring all landscaped areas are maintained to a high standard.

Key Responsibilities

- Carry out landscaping works as per approved drawings and specifications.
- Prepare soil, ground, and planting areas for landscaping.
- Plant and maintain trees, shrubs, flowers, grass, and other vegetation.
- Perform watering, fertilising, pruning, mowing, trimming, and weeding.
- Install and maintain irrigation and drainage systems.
- Install pathways, edging, paving, decorative stones, and other landscape features.
- Monitor plant health and address pests, diseases, and deficiencies.
- Maintain gardens, lawns, pathways, and surrounding areas in good condition.
- Safely use and maintain landscaping tools, equipment, and materials.
- Coordinate with Site Supervisors and other teams to complete works on schedule.
- Report landscaping, irrigation, or site issues to the Supervisor.
- Follow all HSEQ, safety, and PPE requirements.
- Perform other landscaping duties assigned by Management.

Requirements

- Minimum 2 years of relevant experience in landscaping, gardening, or site beautification works.
- Practical knowledge of planting, pruning, mowing, fertilising, weeding, and general garden maintenance.
- Experience in operating and safely handling landscaping tools and equipment.
- Basic knowledge of irrigation and drainage systems is an added advantage.
- Ability to read and understand basic landscape drawings and planting layouts.
- Physically fit and able to perform outdoor work in different weather conditions.
- Ability to work independently as well as as part of a team.
- Good understanding of workplace health and safety procedures.
- Responsible, hardworking, and willing to work flexible hours when required.
- Previous experience in construction sites, resorts, or large landscaping projects will be an advantage.
