Architect

We are seeking a creative and skilled Architect to join our team and contribute to resort, hospitality, and building projects in the Maldives. The successful candidate will be responsible for developing architectural designs from concept through detailed design, ensuring high standards of creativity, functionality, aesthetics, and technical quality.

KEY RESPONSIBILITIES

- Develop architectural concepts and design solutions.
- Prepare concept, schematic, and detailed architectural drawings.
- Produce presentation drawings, 3D models, and high-quality renderings.
- Coordinate designs with structural, MEP, interior design, and landscape consultants.
- Incorporate client requirements and feedback into design development.
- Prepare architectural details, schedules, and construction drawings.
- Participate in design coordination meetings and assist with material selection.
- Respond to site technical queries, RFIs, and construction-stage clarifications.
- Review shop drawings and ensure designs meet project quality and functionality requirements.

TECHNICAL SKILLS

- AutoCAD
- SketchUp
- D5 Render or equivalent rendering software
- Revit
- Adobe Photoshop
- Lumion
- Microsoft Office

QUALIFICATIONS & EXPERIENCE

- Bachelor's Degree in Architecture from a recognized university.
- 3–4 years of post-graduation professional experience in architectural design.
- Experience working under the guidance of a Principal Architect or Senior Registered Architect.
- Experience in hospitality, resort, hotel, villa, restaurant, or recreational projects is highly desirable.
- Strong knowledge of architectural design, planning, detailing, materials, and construction methods.
- Good understanding of coordination with structural and MEP disciplines.
- Strong portfolio demonstrating architectural and visual presentation skills.
