JOB OPENINGS AT

RAAYA by Atmosphere (5*)

Join us at RAAYA by Atmosphere!

Seeking creative individuals to craft unforgettable journeys inspired by Seb's adventure. A 5-star Private Island Retreat nestled in the pristine beauty of Raa Atoll, where nature and life come together to create extraordinary tales.

Engineering

POWERHOUSE OPERATOR

Key Responsibilities

- Operate and monitor generators, power systems, RO/STP, pumps, and auxiliary equipment.
- Ensure safe and efficient power generation and equipment performance.
- Conduct routine inspections, readings, cleaning, lubrication, and minor repairs.
- Identify and report faults, breakdowns, and maintenance requirements promptly.
- Maintain accurate logbooks, shift handovers, and operational reports.
- Follow safety procedures, maintenance schedules, and Chief Engineer instructions.
- Support emergency operations and equipment changeovers as required.

Required skills and qualifications

- Minimum 1–3 years' experience in Powerhouse, Utilities, Engineering, or a similar role, preferably in a resort/hotel.
- ITI, Vocational Course, or equivalent technical qualification.
- Good knowledge of generators, electrical systems, utilities, and basic maintenance.
- Safety-conscious, reliable, and able to monitor and troubleshoot equipment effectively.
- Good communication skills and a team-oriented approach.
