IT Manager

Amilla is a modern retreat with responsible hospitality goals including wellbeing, inclusivity and sustainability. A haven where guests can immerse themselves in the island's natural beauty and experience our commitment to protecting it.

KEY SKILLS & RESPONSIBILITIES

- Manage the resort's IT infrastructure, systems, networks and communications.
- Ensure reliable operation of hotel systems, internet, Wi-Fi, servers, telephones and other technology platforms.
- Provide timely technical support to guests and team members.
- Maintain cybersecurity, data protection, system access, backups and disaster recovery procedures.
- Plan and carry out preventive maintenance, system upgrades and technology improvements.
- Manage IT assets, software licences, vendors, contracts and budgets.
- Develop and maintain IT policies, procedures and system documentation.
- Support sustainable technology initiatives and improve operational efficiency.

KEY PERSONALITY TRAITS

- Strong communication and interpersonal skills.
- Service-minded with excellent problem-solving abilities.
- Calm and responsive when handling technical issues.
- Strong organisational, planning and analytical skills.
- Trustworthy and committed to confidentiality and data security.
- Proactive, adaptable and curious..

EDUCATION & EXPERIENCE

- Bachelor's degree in Information Technology, Computer Science or a related field.
- Minimum 3–5 years of relevant IT experience, preferably within a luxury hotel or resort environment.
